

THE BUILDING BRICKS OF LIFE

## Solar Range

The Solar Range of glazed bricks are the most commonly used glazed bricks in the UK construction industry. Made from fine river bed clay, the bricks are uniform, straight edged and very smooth on the surface.

We have two factories who keep a range of standard colours in stock and would be available in around two weeks depending on quantity.

Almost any type of colour, design or style can applied to these products and they can be made in any RAL colour.

Available in the following sizes:

65 x 102 x 215mm

71 x 107 x 223mm

Non-standard shapes and sizes can be made to order. The glazed brick range can also be applied to British Standard special shape references.

## Terra Range

The Terra Range of glazed bricks are produced on a red bodied clay and have a natural, earthy feel to the bricks. The surface texture is reminiscent of glazed pottery and the colour range is full of depth and character.

The Terra product range is also available in the RAL colour range.

Available in the following sizes:

48 x 100 x 210mm

48 x 100 x 215mm

48 x 105 x 220mm

48 x 115 x 240mm

65 x 102 x 215mm

Non-standard shapes and sizes can be made to order. The glazed brick range can also be applied to British Standard special shape references.

# Synthaglaze Range

The Synthaglaze process allows you to apply a synthetic glaze to any brick shape or texture.

There is a wide range of standard colours and you also have the opportunity to be more creative and have fun with special effects. Glitter, Shimmer, Snakeskin and all out Golden 'Bling' can be applied to the brick.

Special RAL colours can also be achieved with the Synthaglaze finishes.

Available in the following sizes:

Any brick can be glazed in the Synthaglaze finish

Non-standard shapes and sizes can be made to order. The Synthaglaze finish can also be applied to British Standard special shape references.
